Subject: FW: Draft request for availability

Angela, Mary Mindrup informed me that her staff have been contacted regarding potential deployment and Mary would like to know what skill sets and experience are needed, before she sends out a request to her staff.

I presume you or someone else from the REOC made this request. Please reply with the skills and experience you guys are looking for, as well as the potential deployment terms.

Subject: Draft request for availability

Hi Blake,

Before we send out our internal inquiry, I want to make sure I am capturing what you may be wanting. Additionally, I spoke with my counterpart in Region 7 Superfund, David Williams, and he is going to contact your Region 6 Superfund counterpart. He was think that the work I describe below might be better suited for the OSCs. In Region 7 our OSCs are the individuals who evaluate private wells impacted from spills. Does the information below get to what you might need?

Draft below

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

Let me know your thoughts.

Thanks,

Mary A T Mindrup
